

Dear Physician / Doctor,

Prescribe with caution as I am subject to doping test

I am an elite athlete subject to doping test, and if possible, I must **NOT** be prescribed with the substances/methods in the Prohibited List as specified by the World Anti-Doping Code. If a prohibited substance/prohibited method is required to treat my condition and there are no other alternatives, I must need your assistance on completing a Therapeutic Use Exemption (TUE) application.

You are kindly requested to refer to the Prohibited List for the current year that I showed you or to download a copy at www.antidoping.hk. If in doubt, you can also check the prohibition status of any medicine registered in Hong Kong at www.druginsport.hk.

Should you have further enquiry, please contact the Anti-Doping Organization of Hong Kong, China Office at 2890 3644 or antidoping@antidoping.hk.

Thank you for your attention.

Regards,
