

ADAMS Two-Factor Authentication (2FA)

Optional for athletes:

1. Set up TOTP (see page 2); or
2. Set up SMS (see page 3); or
3. You could also set it up later by clicking “skip for now”; or
4. You could opt out

Strongly Recommended to set up TOTP

Select a Two-Factor Authentication method

Please configure a two-factor authentication to increase the security of your account.

1

Time-based One-Time Password

A verification code will be generated using an authentication application that you will need to have on your mobile device.

2

SMS

A verification code will be sent by SMS to your mobile device.

3

SKIP FOR NOW

Or, you could opt out.

[Why two-factor authentication?](#)

Option 1: Configure 2FA with TOTP

You are strongly recommended to set up the TOTP so that you can login anywhere.

- Install or open (if already installed) your two-Factor authentication application on your mobile device.
[Authy](#), Google authenticator ([Android](#) and [iOS](#)) or Microsoft authenticator ([Android](#) or [iOS](#))
- Use the app to scan the provided QR code (like you are taking picture of the QR code) or display the manual code.
- Enter the generated code by your App or the manual code (if used). Then, enter your password and validate.

Configure your Time-based one-time password (TOTP)

1 Get a Multi-factor authentication application on your mobile.

We recommend [Authy](#).

2 Open your virtual Multi-Factor authentication application and scan the following QR code:

[Unable to scan?](#)

token is:

228 885

Your token expires in 5

3 Enter the verification code in the box below.

Provide a device name to help you manage your OTP devices.

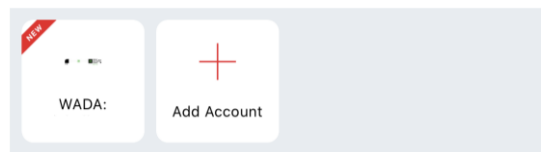

Enter the verification code displayed on your authenticator app *

Device name *
